

CIL sub-committee meeting.

16.12.21. 8.30am Teams

Sarah Buttleman (Acting Chair)

Guy Austin

Ian Macpherson

Shelia D'Souza

Stephen Evans

Rosa Han

Apologies: Yael Saunders

Andrea Merrington

It was discussed and agreed:

1. In principle an application for up to £100,000 would be supported but the following needs to be actioned/clarified.
2. We will need to see a breakdown of the costs. Are there any quotes/estimates? More evidence of costs needed. We would prioritise support for the costs of the surfacing and the bike/scooter stands only to a maximum of £100,000.
3. What other sources of funding have been explored. WCC Education/Sports dept. for climbing frame equipment? Ward Budget? Matched funding from other sources?
4. Has a CIL officer/Education dept. been consulted? Does investment in outdoor space represent value for money in context of the long term future of the school (falling roll numbers in Westminster and specifically here)?
5. Is there a letter of support from the WCC Education Department?
6. Only one Ward Councillor has been consulted. Would want to see a full set, especially with regard to the possibility of Ward Budget funds.
